

CHEMICAL REGULATORY

WEBINAR SERIES 2020 INDIA

REACHLaw Chemical Regulatory Webinar Series 2020 - India consists of a webinar series offering an opportunity to the chemical industry in India to get insights and well-informed guidance on the current but also on the upcoming regulatory requirements regarding REACH-like regulations.

In cooperation with ICC – Indian Chemical Council – this conference aims to provide focused advice on how to approach regulatory and compliance issues affecting the Indian chemical industry that places chemical substances on several Non-EU markets.

The programme features REACHLaw chemical regulatory experts covering current and upcoming REACH like regulations such as: Turkey KKDIK, SEA and GBF, Russian GOST 30333-2007 Standard and UK REACH. In addition, companies will get advice on practical handling of chemical regulatory matters from a leading Industry player.

Companies joining the conference will get important insights on the most suitable compliance strategies and actions so that they can ensure compliance on their business.

TOP 3 REASONS TO ATTEND:

1

Get valuable insights from experts on how to react to the current and upcoming chemical regulatory requirements in Turkey, Russia and the UK.

2

Learn about the different compliance strategies your company can take to ensure compliance.

3

Opportunity to ask questions directly to the expert panel and get a professional advice.

WHO SHOULD ATTEND:

Indian chemical manufacturers exporting chemical substances to Russia, Turkey and the UK.

COMPANIES

REACHLAW

www.reachlaw.fi

As a leading expert in registration, authorization and notification of chemical substances, inside and outside the EU, REACHLaw provides chemical regulatory compliance and sustainability solutions. REACHLaw helps companies to gain market access for their chemical products and supports them with different chemical regulations such as EU REACH & CLP, Turkey KKDİK, SEA and GBF, UK REACH, Eurasia REACH, India REACH, K-REACH and many more.

Furthermore, REACHLaw is also committed to supporting companies with their sustainable growth and, as part of EU's action plan for a Circular Economy, we also help companies to comply with SCIP notification and End-of-Waste criteria obligations, as required by the revised EU Waste Framework Directive (WFD). Headquartered in Helsinki, Finland, REACHLaw has offices in Brussels, London, Moscow, Istanbul and New Delhi. REACHLaw has customers from more than 60 countries and is able to serve its clients in the following languages: English, Finnish, French, German, Spanish, Italian, Swedish, Hindi, Russian, Ukrainian, Hungarian and Turkish.

INDIAN CHEMICAL COUNCIL (ICC)

www.indianchemicalcouncil.com

INDIAN CHEMICAL COUNCIL (ICC) the apex national body representing all branches of the Chemical Industry in India such as Organic & Inorganic Chemicals, Plastics & Petrochemicals & Petroleum Refineries, Dyestuffs & Dye-intermediates, Fertilizers & Pesticides, Specialty Chemicals, Paints etc. The Indian Chemical Council is dedicated to the growth of the Indian Chemical Industry. Established in 1938, ICC has over the years grown its functions and offerings to cater to the varying needs of the Indian Chemical Industry.

The ICC is well represented by senior executives from a wide range of global and local chemical companies. The executive committee of the ICC includes veterans of the chemical industry with vast experience and keen insight into the workings of the chemical industry in India. Their guidance and vision steers ICC to further growth and service. Activities of ICC include organizing various seminars and events for dissemination of information, safety, health and environment issues relating to the Indian chemical industry.

HPL ADDITIVES LIMITED (HPLA)

www.hpladditives.com

HPL Additives Limited (HPLA) is India's leading producer of Blowing Agents, Specialty Chemicals and Polymer Additives, with two thirds of its turnover from exports. HPLA is a prominent name in the global market for Polymer Additives and Specialty Chemicals.

HPLA's market share in Indian Market is over 75% and is also a distinct player in the international industry with exports to more than 49 countries across the world. The broad portfolio of products includes Kinox® Antioxidants and One Packs in its Polymer Stabilizer range of products. In its Modifiers product range, HPLA has Mikrofine® Blowing Agents, Polyazo® Polymerization Catalysts, Hichem® Chain Extenders and Cross Linking Agents. HPL also manufactures a wide range of Specialty & Agro Chemicals and Hydrazine Hydrate.
